Office of the President
December 11, 2018

Members, Board of Trustees:

IMPROVE BUILDING MECHANICAL SYSTEMS
(AG NORTH HVAC) CAPITAL PROJECT

Recommendation: that the Board of Trustees approve the initiation of the Improve Building Mechanical Systems (Ag North HVAC) Capital Project.

Background: Originally constructed in 1964, Agriculture Science Center North consisted of 10 air handling units with constant volume reheat boxes and individual exhaust fans serving numerous different spaces. These units have severely deteriorated and are negatively affecting building air quality and pressurization. This phased project will replace and combine existing equipment that has reached the end of its useful life cycles.

This \$8,000,000 project, authorized by the 2018 Kentucky General Assembly, will be funded with agency funds.

Action taken: Approved Disapproved Other _____
